

DOPA | INTEGRATED SCHOOL

Academics Aligned

About Us

DOPA is an initiative founded by a group of young doctors who completed their MBBS from Calicut Medical College, Kerala, with a mission to support passionate students in cracking entrance exams. The DOPA Integrated School enables students to begin their competitive exam preparation alongside their Plus One and Plus Two studies, ensuring a well-aligned academic journey. Scholarships are awarded to students who achieve outstanding scores in the Integrated School Entrance Exam, encouraging academic excellence from the start.

Afsal Safwan

Academic Director, Integrated School

“The DOPA System is the backbone of our success at DOPA Integrated School. It promotes discipline, delivers a well-rounded curriculum, and sharpens our students to become focused, goal-driven individuals. As Academic Director, I’ve seen how this system transforms potential into excellence. It not only equips students with knowledge but also instills the values they need to thrive in any path they choose.”

Dr. Niyas Paloth

Director, DOPA

“At DOPA Integrated School, our vision is to shape future leaders by blending strong academics with character development. Our integrated approach enables students to excel in board exams and competitive tests alike. We’re proud that our first batch has already set a strong benchmark in both academics and attitude.”

Dr. Ashiq Sainudheen

Director, DOPA

“Every student at DOPA has a dream, and it’s our job to guide them toward it. Our Placement Cell is committed to placing students in the right career paths based on their strengths and interests. Whether it’s medicine, engineering, or research, we ensure they are on the track to becoming what they aspire to be.”

Dr. Mohammed Asif

Director, DOPA

“Our first NEET-focused batch of 60 students has delivered outstanding results in NEET 2025—with 12 students scoring above 500 marks. Additionally, 25 of them have qualified JEE Main 2025. This success is just the beginning. Our goal is to produce All India Rank 1 holders in both NEET and JEE in the coming years.”

Curricular Activities

Morning Meeting

There are daily orientation and motivation classes for students through Zoom at 8:30 AM, led by directors.

Grand Test

There will be a grand test at the end of each month that covers all the topics from the series of tests conducted throughout that month. (720 marks)

Series Test

There will be a series of tests every Monday based on the previously completed chapters. (PYQ questions & non PYQ questions included on exam)

Plus Two

Classes for Plus two students will be given by the beginning of November

Morning Meeting

Study Plans

Mission NCERT

Public Defence

Series Test

Grand Test
(PYQ & Expected Questions)

Plus two full topic exams

Marathon Exams

Mission NCERT

It is a competition where students engage in one-on-one Q&A, resembling a court setting with a judge presiding, to demonstrate their knowledge and understanding of biology topics.

Public Defence

A dynamic speed-based competition where individual students compete to occupy the hot seat. Each participant is given 60 seconds to tackle challenging questions from Physics and Chemistry, enhancing their ability to swiftly navigate complex concepts in these subjects.

Mission 300

Aims to locate and solve 300 previous and model questions from various exams, enhancing preparedness and understanding of different test formats.

PRP

Personal Revision Plan

Dopa Intergrated School provides a Personal Revision Plan (PRP) to the students, starting revisions for the Plus One topic right after November.

Placement Cell

Ensure all students receive proper updates regarding the exam pattern and exam date

Career guidance

Aptitude test

Special care for students in all exams

The student solves more than

150
QUESTIONS

Physics and Chemistry daily.

An accurate study plan for what a student will study in a day.

Once a student completes a chapter in Physics or Chemistry, all the NCERT questions in that chapter will be solved by them.

Mentor Visits (MBBS, IIT, NIT)

Chapter in the Week

After completing a chapter in a week, it should be categorized as high, medium, or low based on their understanding. For chapters categorized as 'low', it should focus more and will make the students study intensively. For the following week, 40% of the daily practice questions should be from these low-ranked chapters. If the chapter is still not understood even after this, then in the following week, 20% of the daily practice questions should be from the same chapter.

Mission 300

When a student completes each chapter in physics or chemistry, they must submit 300 questions before a specified date.

Revision

Provide revision before public exam

Repeaters Batch

Dopa Integrated School has a unique advantage: we complete the entire Plus Two syllabus by the end of June, even before other schools start teaching it. So repeaters batch will start by the beginning of June.

- * Morning Meeting
- * Daily hunt (Above 400 questions)
- * Study plans
- * Will conduct more than 20 exams in a month (PYQ, non-PYQ, expected questions of NEET and JEE, and other exams)

Micro Batch

Select toppers from bureaucrats and provide them with special study plans and mentorship similar to Dopa's AIIMS batch.

Plus two will be completed by the end of June

Testimonials

Hadiya Sherin

DOPA Integrated School gave me the perfect environment to excel in all areas. I scored 568 in NEET, 98 percentile in JEE Mains, and full A+ in my Plus Two board exams. The expert faculty, regular practice tests, and balanced schedule helped me stay consistent. With doctors leading the system, we got real mentorship and motivation every day. I owe my success to DOPA's structured approach."

Aleefa P

"I scored 542 in NEET and secured full A+ in my Plus Two board exams, all thanks to DOPA's structured and supportive system. The integrated coaching helped me prepare for both board exams and NEET without stress. The faculty gave us clear concepts and regular tests to stay exam-ready. DOPA truly focuses on overall academic success, not just competitive exams. I'm so glad I studied here."

Rishad Munna
NEET 2025 Kerala Rank 6

"As a student of the DOPA Repeaters Batch, I secured 6th rank in Kerala in my third attempt. Three months before NEET, I was part of the special Micro Batch where toppers from both Repeaters and Integrated School studied together. That's when I truly saw the potential of DOPA's Integrated School students. Their focus, discipline, and academic performance were outstanding. I'm confident most of them will crack NEET in their very first attempt. DOPA's structured system and mentoring are truly exceptional."

ANSHIDA

"What sets DOPA apart is that it's led by experienced doctors who truly understand what NEET preparation requires. Their real-world insights and mentoring helped us stay focused and inspired. DOPA doesn't just focus on entrance exams — we also scored high in our Plus Two board exams. The integrated approach here ensured I was fully prepared on all fronts. I'm proud to be a DOPA student."
